11% INCREASE IN THE MILK DELIVERED IN THE FIRST 9 MONTHS OF 2025

 **DN AGRAR delivered approximately 52 million liters of milk in the first 9 months of this year, marking an approximately 11% increase** compared to the same period in 2024.

 **In September 2025, the company recorded an increase of over 23% in the quantity of milk delivered,** compared to September 2024.

 **DN AGRAR continues the upward trend in milk deliveries, being firmly committed to achieving its annual target of at least 70 million liters delivered,** marking a 10% increase compared to 2024.

Institutional trust: Investment that validates DN AGRAR's Strategy

Peter de Boer
CEO & BoD Member
DN AGRAR Group:

"The transaction marks a significant milestone as it strengthens institutional investors holdings in DN AGRAR, the largest company traded on the AeRO market. The entry validates the trust in our vision and in the Development Strategy announced in May, defined not just by the expansion of our core dairy operations, but by the creation of entirely new business lines.

Furthermore, this step is particularly significant for a company listed on the AeRO Market, which traditionally attracts mainly individual investors. Since our listing, DN AGRAR shares have increased by more than 300%, and today we are among the top companies in the BETAeRO index in terms of liquidity, at levels comparable to the Main Market. Since our listing in 2022, we have kept our promises, tripled in size, and expanded our operations, capabilities, and

impact in the agribusiness sector."

About DN AGRAR Group

[DN AGRAR](#) is the largest dairy milk producer in Europe and one of the leading integrated agrifood company in Romania, listed on the

Bucharest Stock Exchange since 2022.

The Group operates an integrated business model focused on milk production, crop cultivation, organic composting and green energy, supporting a sustainable, circular agriculture.

With five large-scale farms and a livestock base exceeding 16,000 heads, it delivers approximately 70 million liters of milk per year, with the goal to double the production to 150–200 million liters annually by 2030.

DN AGRAR Group manages more than 10,000 hectares of farmland and two compost facilities with a capacity of 14,000 tons of organic fertilizer per year, aiming to increase this to 40,000 tons by 2030.

The Group has tripled its business in just three years since going public and now targets a doubling of EBITDA by 2030, alongside the ambition to produce net-zero milk.

To support its growth as a regional leader in premium dairy and food production, DN AGRAR Group's 2030 strategy combines the doubling of milk production capacity with expansion into complementary business segments.

These include vertical wheatgrass farms, expected to supply 25% of the current feed input, biomethane production in partnership, industrial greenhouses, and expanded composting infrastructure. Together, these initiatives are designed to enhance operational performance and efficiency, being also enables for the development of industrial clusters and projects for increasing milk value.

Founded as a family business in 2008 by Jan Gijsbertus de Boer, DN AGRAR Group operates in the heart of Transylvania, with activities spanning in tree counties - Alba, Sibiu, and Hunedoara. Listed on the AeRO market of the Bucharest Stock Exchange since February 2022, the company is included in the BETAeRO local index, as well as in the international indices MSCI Frontier IMI and MSCI Romania IMI (Small Cap category).
